Work Days Calculator

Count Monday-Friday dates after excluding supplied holidays. Include the start when it is an eligible work day; exclude the end unless the inclusive option is checked.

Formula: work days = count(Monday-Friday dates not in the supplied holiday set)

INPUTS AND EXAMPLE VALUES

Start date: 2026-01-01

End date: 2026-01-31

Include the end date: not selected

Excluded holidays (YYYY-MM-DD, comma separated):

CHECK THE DEFAULT EXAMPLE

Work days (Monday-Friday): 22 days

LIMITS AND CONVENTIONS

The end must be on or after the start. An included date counts only if it is Monday-Friday and not an entered holiday.

Only Saturdays, Sundays and supplied holidays are excluded; local public or substitute holidays must be entered manually.

Calendar-date inputs and calculated calendar dates must stay within years 0001-9999.
